Request

Hello,

I am submitting a request pursuant to Iowa Code Chapter 22 for records related to the governance, design, and oversight of Iowa's Comprehensive Child Welfare Information System (CCWIS), including the VISION system.

This request is limited to **existing policy documents, reports, and system-level materials** and does not seek case-specific information.

Requested Records:

- Advance Planning Documents (APDs) and amendments submitted to the Administration for Children and Families
- Federal approval letters, technical reviews, or feedback
- Data governance policies, including:
  - Data validation rules
  - Data quality controls
  - Audit log policies
- System access control documentation:
  - Role-based permissions
  - Override permissions
- Vendor deliverables, reports, or summaries (including contractors such as Google Public Sector or similar)
- Any internal or external system audits, security reviews, or integrity assessments

Please include any records reflecting **system limitations, known defects, or data integrity concerns**.

Format & Processing:

- Please provide records electronically
- Please prioritize existing reports and finalized documents
- Please produce records on a rolling basis

Fees:

I request a waiver or reduction of fees as this request is in the public interest.

If fees are anticipated, please provide a detailed estimate prior to proceeding.

Thank you,

Ashley Meredith

Message from requester Requester + Staff

Hello,

Thank you for your update and for providing the cost and time estimate associated with the KinderTrack data governance records.

At this time, I am still in the process of securing funding to proceed with the request. I would like to keep ORR 26-1536 open while I work through that process and continue coordination as needed.

If possible, please do not close or archive this request due to timing, as I intend to move forward once funding is confirmed. If there are any administrative deadlines, payment windows, or procedural steps required to maintain the request in active status, I would appreciate guidance so I can ensure compliance with your process.

Thank you again for your assistance and for the work already completed on this request.

Sincerely,

Ashley Meredith, MSN

Message to requester Requester + Staff

Hello Ashley,

HHS has reviewed your request. The FACS and JARVIS data governance were provided in our last response. HHS determined it would take staff 15 hours to gather the data governance documents responsive for Kindertrack. Our staff would provide 3 hours of time without a charge but then we would charge $32/hour. HHS requests half of the estimate be paid prior to gathering the data.Please let me know if you would like us to send an invoice for this request.

The Iowa Department of Health and Human Services (HHS) has received and is reviewing your open records. You may view the Department's open records policy at Open Records Policy.

Iowa HHS attempts to determine if we have responsive records that can be released within 10 business days, but it may take longer based on the complexity of your request or workload and staffing issues. I'll do my best to keep you updated if we will require additional time on this request.

Please let me know if you have any questions at this time. Thank you for your request.

Requester + Staff

Hello,

Thank you for your response and for providing the CCWIS IAPD and related materials.

I am submitting a follow-up request to clarify and better understand how data governance, oversight, and integrity controls function in the absence of a formal, centralized Data Governance Policy.

Specifically, I request records sufficient to demonstrate how data governance is implemented in practice within Iowa HHS child welfare systems (including CCWIS/VISION, KinderTrack, and any legacy systems), including but not limited to the following:

1. Governance Structure and Responsibility

- Records identifying roles, committees, or personnel responsible for data governance, data quality, and system oversight
- Any charters, internal frameworks, or governance models used in place of a formal policy

2. Data Quality and Validation Controls

- Documentation describing how data accuracy, completeness, and consistency are ensured
- Data validation rules, quality control procedures, or internal guidance used by staff

3. Audit Trails and Data Integrity

- Policies or documentation governing audit logs, including:
  - Data entry tracking
  - Record modifications
  - Override tracking and review
- Any internal or external reviews assessing data integrity, discrepancies, or system reliability

4. Access Control and Override Authority

- Documentation describing how access permissions are assigned, monitored, and reviewed
- Records identifying how override authority is granted, used, and audited

5. System Limitations and Known Issues

- Records reflecting known system limitations, defects, data integrity concerns, or workarounds
- Internal communications, reports, or memoranda discussing such issues

6. Use of External Standards

- Records demonstrating how the Department of Management standards referenced in your response are implemented in practice within HHS systems
- Any internal interpretations, guidance, or mappings of those standards to HHS operations

To reduce administrative burden, this request is limited to existing, non-confidential records that are already maintained in the ordinary course of business and can be retrieved without extensive manual review.

If no records exist for any category above, please confirm that explicitly.

Please provide:

- A time and cost estimate for fulfilling this request
- The employee classification performing the work
- Confirmation that responsive records will be produced on a rolling basis as they are identified

If any portion of this request is denied or withheld, please provide the specific legal basis for each withholding and release all reasonably segregable portions.

Thank you for your assistance.

Sincerely,

Ashley Meredith, MSN
