

Section 3

Petition Basis & Audit Scope

Version 2.0 — Preliminary Draft

Petitioner: Ashley Marie Meredith, MSN | Pro Se

■ PRELIMINARY DRAFT — NOT FOR CITATION OR DISTRIBUTION WITHOUT PERMISSION

PETITION TO AUDIT — IOWA DEPARTMENT OF HEALTH AND HUMAN SERVICES

CHILD WELFARE SYSTEMS — SECTION 3

SECTION 3 — MASTER ATTACHMENT MAP & EVIDENTIARY INDEX

Version 1.1 | June 5, 2026

Audit Petition Packet v2.0 (5/2026)

PURPOSE: This section is the structural map of the entire system of evidence in this petition. It provides: (1) a complete inventory of all physical attachments; (2) a domain crosswalk mapping each attachment to the relevant audit risk area; (3) an evidentiary status classification for each attachment; (4) the Source Control ID Registry governing traceability; and (5) the audit linkage logic connecting evidence to findings. Reviewers unfamiliar with the packet structure should read

Section 2 (Definitions & Scope) before using this index.

Note on Part numbering: Parts are grouped by evidentiary function, not sequential document position. Gaps in Part numbering reflect attachment retirements or reclassifications in v2.4.

Part 3 (originally reserved for CFSR R4 documents) was retired when

Section 7 body content absorbed those records. R4 source documents are cited by URL per Section 5.6, not physically attached.

Part 9 (originally reserved for additional case-level media) was retired and consolidated into Part 11 in v2.4.

3.1 ATTACHMENT MAPPING SYSTEM

The following table constitutes the complete structural inventory of physical attachments filed with this petition. Attachments are grouped into Parts by evidentiary function. The clean attachment range is A01–A30 and A33–A52 (49 primary attachments). Attachments A31 and A32 have been reclassified as Section 13 body content. Pending attachment A57 (Grassley call record) will be incorporated when received.

Sub-attachment series are designated with letter suffixes and filed as grouped exhibits within their parent attachment folder:

A15-A through A15-E — ICAPP Evaluation Reports (SFY 2019–2023)

A16-A through A16-H — ECI Annual Reports (FY 2018–FY 2025)

A23-A through A23-M — AOS Reports of Recommendations (2009–2021)

A27-A through A27-P — Ombudsman Annual Reports (2010–2025)

A42A–A42D — ORR records requests and communication logs

■	ATT	■	TITLE / DESCRIPTION	■	STAGE / FUNCTION	■

■ PART 12 — PETITIONER AFFIDAVITS ■

■ A39 ■ Affidavit of Ashley Meredith — Communication Summary (Mar 2026) ■ Petitioner record ■

■ A40 ■ Affidavit of Ashley Meredith — Procedural History (Apr 2026) ■ Petitioner record ■

■ PART 13 — PUBLIC INTEREST & SUPPORT RECORD ■

■ A41 ■ Physical Petition Signature Pages (Apr 2026) ■ Public support record ■

■ A42 ■ Change.org Online Petition (active since Feb 2026) ■ Public support record ■

Domain labels are defined in Section 5.1.

DOMAIN A — FUNDING AUTHORIZATION & FEDERAL COMPLIANCE

Primary deficiency categories: F5 (Repeat Findings), F7 (Financial

Controls & Reimbursement Compliance)

Primary attachments: A01, A02, A03, A04, A10, A11, A13, A22, A23,

A24, A25, A26, A45, A49, A50

Audit Focus: Whether federal funds were claimed, allocated, reported, and accounted for consistent with statutory purpose and conditions before and after the 2022 reorganization; and whether the CCWIS procurement maintains proper compliance with federal reimbursement requirements under Title IV-E.

Key Audit Questions:

- Did the 2022 reorganization affect proper cost allocation and fund tracing across the IV-E and IV-B programs?
- Were federal funds used consistent with grant conditions in the ICAPP, CAPTA, ARPA, and CCWIS procurement programs?
- Does the Google/Carahsoft CCWIS contract meet ACF federal requirements for IV-E reimbursability under 45 C.F.R. Part 1355?

Representative Supporting Findings:

55% Safe Plan of Care failure rate [A10, APSR FFY2026]

\$3.1M ICAPP funding shortfall [A15, SFY2019]

Recurrent mid-year funding cuts [\$3M SFY10] [A03, R2 SA]

\$40M non-IV-E eligible SBC claims [A22, Sivic]

\$36.5M understated; \$3.2M uncollected [A23, AOS]

\$167,716 questioned federal costs [A26, AOS Crossroads]

CCWIS contract lacks PHI access background check requirements

[A44, A49] — direct reimbursement compliance question

ACF conditional (not unconditional) approval of IAPD [A45]

DOMAIN B — CONTRACT & PROVIDER OVERSIGHT

Primary deficiency categories: F6 (Contract & Provider Oversight),

F2 (Ongoing Monitoring), F11 (Interagency Coordination)

Primary attachments: A14, A15, A17, A19, A20, A21, A22, A23, A24,

A25, A26, A33, A44

Audit Focus: Whether contractual oversight and accountability mechanisms were maintained through agency transition and whether licensed placements received sufficient monitoring to detect safety risks before harm occurred.

Key Audit Questions:

- Were contract terms enforced consistently across the ICAPP, MCO, and FSRP provider networks?
- Did monitoring systems detect performance or compliance issues in licensed placements before adverse events occurred?
- What corrective action, if any, was taken following documented provider performance failures?

Representative Supporting Findings:

0% SafeCare contractor performance on key metrics [A19, C!A]

No CQI system for key behavioral health interventions [A18, AECF]

100% failure rate on contract monitoring documentation [A24, AOS]

Never exercised contractual MCO staffing authority [A25, AOS MCO]

No DHHS subrecipient monitoring documented [A26, AOS Crossroads]

MCO PHI breaches — 30+ incidents without documented response [A25]

Felony child endangerment in active licensed foster placement

with no documented monitoring trigger [A33, Drew dockets]

CCWIS contractor personnel accessing child welfare PHI without background check requirements in contract [A44, A49]

DOMAIN C — DECISION CONTROLS & CASE AUTHORIZATION

Primary deficiency categories: F1 (Safety Assessment), F3 (Timeliness & Response), F13 (Policy-Practice Gap)

Primary attachments: A02, A03, A04, A10, A11, A17, A18, A28, A29,

A30, A33, A39, A40

Audit Focus: Whether decision tools affecting child removal, safety assessment, and case planning were validated, consistently applied, and governed by adequate controls before and after the 2022

reorganization; and whether ICWA requirements were met in cases involving tribal children.

Key Audit Questions:

- Were SDM tools revalidated following the 2022 reorganization?
- Are safety assessment overrides documented and supervised consistently?
- What policy governed drug testing as a basis for case progression decisions, and was it applied uniformly?

Representative Supporting Findings:

91% ongoing safety assessment deficiency rate [A04, CFSR R3]

Invalid behavioral data used for medication decisions [A07, monitoring]

African American/Black outcome disparities documented [A15, ICAPP]

Safety plans used as "promissory notes," not active instruments [A04, R3 PIP, Strategy 1.1]

Split safety determinations documented without resolution [A27, A28]

Continued placement decisions post-conviction without safety reassessment [A33, Drew dockets]

Protocol violations documented firsthand [A39, A40, affidavits]

DOMAIN D — JUDICIAL INTERFACE & LEGAL OVERSIGHT

Primary deficiency categories: F11 (Interagency Coordination),

F12 (Supervisory Review & Escalation), F13 (Policy-Practice Gap)

Primary attachments: A06, A07, A08, A28, A29, A30, A33, A37, A38, A40

Audit Focus: Whether agency-court coordination maintained appropriate documentation, separation, and oversight standards; and whether ICWA tribal notification, qualified expert witness, and court transfer requirements were met.

Key Audit Questions:

- Were all communications with courts, GALs, and CASA documented and retained?
- Did funding relationships between Iowa HHS and court-adjacent entities create coordination or independence risks?
- What tribal notification protocol was followed in cases involving

children who may qualify for ICWA protections?

Representative Supporting Findings:

DOJ: Court documentation concerns documented across CRIPA reviews

[A06, DOJ findings 2002–2021]

Federal court monitoring reports note continued documentation

failures under active judicial oversight [A07, Oct 2023]

Combined TPR/permanency hearings documented without judicial separation [A13, CFSP p.11]

Judicial sibling separation failures in monitored placements [A38]

ICWA non-compliance (Woodbury County) documented in Round 1 with no documented corrective mechanism in subsequent rounds [A02, A04]

DOMAIN E — OUTCOMES, INCENTIVES & SYSTEMIC DISPARITIES

Primary deficiency categories: F4 (Documentation & Data Integrity),

F8 (Service Gaps & Access Failures), F13 (Policy-Practice Gap)

Primary attachments: A02, A03, A04, A09, A10, A13, A15, A16, A17,

A18, A27, A35, A36, A41, A42

Audit Focus: Whether measurable child welfare outcomes improved over the three-round longitudinal record; whether performance metrics incentivized accurate reporting or administrative compliance; and whether demographic disparities were identified, tracked, and remediated.

Key Audit Questions:

- Did safety and permanency outcomes show sustained improvement after any of the three completed CFSR PIPs?
- Are monitoring gaps in high-risk placements detectable through the current outcome measurement system?
- What mechanism tracks and reports demographic disparities in removal, placement, and TPR outcomes?

Representative Supporting Findings:

Iowa failed all 7 CFSR outcomes in Round 2 and Round 3 [A03, A04]

19.1% maltreatment recurrence vs. 9.7% federal target [A10, APSR]

11.5% re-entry to foster care vs. 5.6% target [A10]

79% of re-entries occurred within 6 months of exit [A10]

Permanency Outcome 1 has never achieved substantial conformity across any completed review cycle [A02, A03, A04]
\$14.2M state liability acknowledgment [A35, A36, media record]
Community petition for accountability: 1,000+ signatories [A41, A42]

DOMAIN F — WORKFORCE CAPACITY & INTERNAL ACCOUNTABILITY

Primary deficiency categories: F9 (Workforce Capacity & Caseload Crisis), F12 (Supervisory Review & Escalation), F2 (Ongoing Monitoring Deficiency)

Primary attachments: A02, A03, A04, A06, A07, A09, A10, A12, A15,

A19, A20, A21, A24, A26, A27, A28, A29, A30, A39, A40

Audit Focus: Whether workforce capacity at the caseworker and supervisory levels supported consistent compliance with safety, monitoring, and documentation requirements; and whether internal accountability mechanisms functioned as designed.

Key Audit Questions:

- Did staffing levels and caseload ratios support the required frequency and quality of caseworker contact with children?
- Were internal complaints about caseworker or supervisory conduct processed and resolved through documented procedures?
- What internal consequence, if any, followed documented supervisory failures identified in the Ombudsman fatality investigations?

Representative Supporting Findings:

638 staff lost via early retirement incentive at start of Round 2 review period [A03, R2 SA p.9]

Caseloads of 35–55 per worker documented in R1; 13% workforce reduction and 19% caseload increase documented in R3 period

[A02, A04]

91% professional staff failure rate on abuse reporting [A07, monitoring]

30–35% annual turnover; supervisors spending 50% of time on documentation rather than oversight [A19, C!A]

No performance evaluations for expired provider contracts [A24, AOS]

Supervisors reprimanded field workers for making required reports

[A29, Natalie Finn investigation]

F9 + F12 documented in 29 of the 37 primary source documents
reviewed in the pre-petition analysis

DOMAIN G — FEDERAL OVERSIGHT HISTORY & CORRECTIVE ACTION RESPONSE

Primary deficiency categories: F5 (Repeat Findings Not Corrected),
F12 (Supervisory Review & Escalation)

Primary attachments: A02, A03, A04, A06, A07, A08, A09, A10, A11,

A12, A13, A23, A26, A27, A28, A29, A30, A43, A45

Audit Focus: Whether federal corrective actions — CFSR PIPs, DOJ findings, and court monitoring requirements — resulted in sustained improvement in any of the seven primary CFSR outcome areas; and whether the structural design of CFSR Round 4 is capable of producing reliable conformity determinations given the longitudinal record.

Key Audit Questions:

- Which findings persisted unresolved across all three completed CFSR cycles?
- Did any PIP produce measurable, sustained improvement that was verified in the subsequent federal review?
- What is the current federal compliance status of Iowa's Round 3 PIP, which was never formally approved at final submission?

Representative Supporting Findings:

Iowa failed 5 of 7 outcomes in R1; all 7 in R2 and R3 [A02–A04]

Round 3 PIP submitted four times; approval date blank at final submission May 2020 [A04, PIP cover page]

TB-14 (Dec 2025) suspended PIP enforcement mechanism [Section 7]

DOJ findings span 2002–2021 across three separate investigations without producing durable structural correction [A06]

DHS response to Senator Ernst mischaracterized system performance relative to contemporaneous federal findings [A43]

F5 documented in 12 of the 37 primary source documents reviewed

DOMAIN H — DATA INTEGRITY & SYSTEM AUDITABILITY

Primary deficiency categories: F4 (Documentation & Data Integrity),
F13 (Policy-Practice Gap)

Primary attachments: A02, A03, A04, A06, A07, A10, A21, A23, A43,

A44, A46, A47, A48, A49, A50, A51, A52

Audit Focus: Whether child welfare records remained reliable through the FACS-to-VISION-to-CCWIS system migration; whether current data governance policies provide sufficient controls over PHI access; and whether Iowa's reporting to federal agencies is reproducible and independently verifiable.

Key Audit Questions:

- Can historical child welfare records be reliably reproduced and cross-verified across system migrations?
- Are data entry errors in the current system systematically detected and corrected before federal reporting?
- Does the CCWIS implementation maintain audit trail integrity sufficient for independent verification of outcome metrics?

Representative Supporting Findings:

DOJ: Records overwritable without audit trail [A06, p.23]

Behavioral health data formally classified "not reliable" by federal court monitors [A07, monitoring report p.33]

"High risk of inaccurate data" formally admitted by Iowa HHS [A10, APSR — specific language retained]

KinderTrack "prone to errors"; 286 unlinked records [A21, Harkin]

QA self-report exceeded federal determination by 23–28 points on caseworker visits in Round 2 [A03]; categorical disagreement on QA rating in Round 3 [A04]

Zero documentation of \$2.3B oversight activities [A24, AOS]

CCWIS contractor personnel access PHI without background check requirement in contract [A44, A49] — data governance gap

DHS response to Ernst misrepresented system performance relative to contemporaneous data [A43]

F4 documented in 21 of the 37 primary source documents reviewed

3.4 SOURCE CONTROL ID REGISTRY (SRC SYSTEM)

Each attachment is assigned a Source Control ID (SRC ID) used for internal traceability. The SRC ID encodes the Part number, attachment designation, and a short document identifier. SRC IDs are the authoritative reference for internal cross-checks between the metadata spreadsheet (v2.4), petition body sections, and companion reports.

The format is: P[Part]-A[Att#]-[IDENTIFIER]

■ ATT ■ SRC ID ■ SHORT TITLE ■

3.5.3 ORR Traceability Note

Two Open Records Requests are filed with this petition as sub-attachments A42A–A42D. Their production traceability is:

ORR #26-927 (A42A, A42B): Produced DHS 18-B1, 18-C2, training manuals, and task force records. Communication log filed as A42B.

ORR #26-1536 (A42C, A42D): Produced Iowa Advanced Planning Document (IAPD) for CCWIS (A49, A50), Google/Carahsoft contract (A44), ACF conditional approval letter (A45), and three HHS internal policies (A46, A47, A48). Communication log filed as A42D.

A54 (Iowa HHS Communication 626 — Drug Testing Policy): Located independently via the Iowa HHS public website in February 2026. Not produced through either ORR. Filed separately. [Note: A54 is referenced in Section 18 and the CCWIS Companion Report; it has been moved to the vacatur file and is not in the clean attachment range

for this petition.]

3.5.4 Cross-Reference to Companion Reports

Where a section of this petition carries the notation → CFSR CR or → CCWIS CR, the referenced companion report is the authoritative analytical record for that finding. The primary petition summary does not supersede the companion report's full evidentiary analysis.

Companion Document 1: Iowa Child Welfare Systems Review — CFSR Longitudinal Forensic Analysis and Round 4 Structural Integrity Assessment. Cross-referenced in Sections 6 and 7.

Companion Document 2: Iowa CCWIS Vision Oversight and IT Procurement Compliance Report. Cross-referenced in Section 18.

DOMAIN & DEFICIENCY MAPPING — SECTION 3

Section 3 is the indexing and traceability layer. It does not generate independent deficiency findings — it maps the evidence that supports findings in Sections 6–19. All Domains A–H and Deficiency Categories F1–F13 are represented in the evidentiary index (Section 3.2) through their mapped attachments.

AUDIT QUESTIONS GENERATED — SECTION 3

AUDIT QUESTION 3-A: The ORR process (A42A–A42D) is used in this petition as a direct test of Iowa HHS's record retrieval capacity and data system auditability. ORR #26-927 and #26-1536 produced the records indexed above. What is the complete inventory of records Iowa HHS identified as responsive to each request, and what, if any, records were withheld under claimed exemptions?

AUDIT QUESTION 3-B: The SRC ID registry (Section 3.4) documents the document control architecture governing this petition's evidentiary record. What comparable document control system does Iowa HHS maintain to govern the traceability of its own compliance submissions to the Children's Bureau across CFSR rounds?

AI assistance disclosure: See Section 5.8.

End of Section 3 — Version 1.1 — June 5, 2026

Audit Petition Packet v2.0 (5/2026)

AI assistance disclosure: See Section 5.8.

AI assistance was used materially in the preparation of this document. That assistance does not constitute independent verification of any factual claim.
